

CAUTION: This schematic diagram is a normal standard one.
The parts rating and/or schematic diagram will be changed without notice.

NOTES

- ▲ : CERAMIC capacitor. All ceramic capacitors are above 25V rating.
 - : FILM capacitor. All film capacitors are above 50V rating.
 - NP : NON POLAR capacitor.
 - T : TANTALUM capacitor.
- And all capacitors are ELECTROLYTIC capacitors, unless otherwise marked.
Unless otherwise indicated.
Resistance in Ω, K=KΩ, M=MΩ Resistors. 1/4W ±5% rating.
Capacitance in P=pF, μ=μF

PCB-SC-0101B
